<sup>1</sup> Adjusted EBITDA is calculated as net profit for the period adjusted for: (i) income tax expense; (ii) finance income and expenses; (iii) share of profit/(loss) of equity accounted investments; (iv) depreciation, amortization and impairments; (v) Adjusted EBITDA (as defined herein) of equity accounted investments in which the Group holds an interest of more than 50% or financial instruments that, if exercised, enable the Group to obtain control (excluding companies that have not yet commenced operations), and/or of businesses disposed of or in the process of disposal; (vi) costs related to M&A, advisory and international activities; (vii) integration costs (including expenses on corporate restructuring, redundancy and higher costs incurred in relation to renegotiated operating contracts); (viii) other income and expenses that, in view of their nature, are not reasonably expected to recur in future periods. This applies to the entire document.

<sup>2</sup> Calculated assuming a normalised sports betting payout of 80.5% for retail and 85.5% for online.

<sup>3</sup> Market shares are based on GGR. GGR (or gross gaming revenues) refers to the difference between bet and winnings. This applies to the entire document.

<sup>4</sup> Includes Sportbet and Bgame.

<sup>5</sup> Includes Cristaltec group revenues of Euro 2.3 million in Q1 2026, consistent with the approach adopted by management to monitor the results of the operating segments (Euro 1.2 million in Q1 2025).

<sup>6</sup> Operating cash flow is calculated as Adjusted EBITDA net of recurring capex and concession capex.

<sup>7</sup> Adjusted Net Profit is calculated as net profit for the period adjusted for: (i) amortization of higher value of assets resulting from business combinations following the purchase price allocation process and other non-recurring amortization and depreciation; (ii) other non-recurring costs and income excluded from Adjusted EBITDA, (iii) financial income and expenses that, due to their nature, are not reasonably expected to recur in future periods, (iv) other non-monetary items including in financial expenses and (v) tax effects on such adjustments.

<sup>8</sup> LTM run rate Adjusted EBITDA is calculated as Adjusted EBITDA for the last twelve months ended 31 March 2026, proforma bolt-ons and the PWO run rate synergies.

- **Successfully priced SSN due 2032 for Euro 765 million in April:** the proceeds will be used to fund the redemption of Euro 400 million Floating Rate Senior Secured Notes due 2031 (with run rate interest savings of approximately Euro 5.5 million per annum) and for general corporate purposes, which may include buyback or potential future bolt-on acquisitions. Closing expected on 7 May 2026. **Cost of debt now at 4.9% (from 5.3%)**
- **Dividend payment confirmed:** Euro 0.44 per share, amounting to a total dividend payment of c. Euro 111 million<sup>9</sup>
- **AGM in April authorized to buyback an additional 12.5% of the share capital: up to Euro 1 billion may be returned to shareholders in 2026 and 2027**, including dividends<sup>10</sup>
- **Guidance<sup>2</sup> for fiscal year 2026 confirmed: Adjusted EBITDA expected at the top end of the range.**

**Guglielmo Angelozzi, Chairman and Chief Executive Officer of Lottomatica Group**, commented: *“In the first quarter of 2026 we continued to see strong momentum of our addressable markets, supporting a double-digit growth YoY in Adj. EBITDA of +22%, on a normalised basis. PWO continues to perform well having fully recovered its market share in total Sports compared to pre-migration levels, and with a good progression in iGaming. We also successfully carried out the refinancing of our FRNs due 2031, lowering our average pre-tax cost of debt to 4.9%.*

*With a positive outlook for FY 2026, we expect to close the FY 2026 Adj. EBITDA at the top end of the guidance and to return up to Euro 1 billion to shareholders in 2026 and 2027, starting this week with the launch of the newly approved buyback programme.*

*Finally, we thank all our shareholders for their continued support.”*

Such Shareholders’ Meeting also revoked, with effect as of 20 April 2026 and only for the portion not yet executed, the previous resolution authorising the purchase of treasury shares adopted on 30 April 2025 (without prejudice to the validity of the related authorisation for future disposal of treasury shares already acquired by the Company).

### **Purpose of the Programme**

In particular, the Programme is aimed at acquiring shares in order to remunerate the shareholders and meet the commitments deriving from the share incentive plans in place from time to time, it being understood that, should opportunities arise to realise potential acquisitions or other projects that can guarantee attractive returns for the Company that require the use of the Company’s cash, the buy-back programme may be interrupted or reduced.

### **Operating procedures and trading venues**

The purchase transactions will be carried out through Goldman Sachs International, as authorised intermediary appointed for the implementation of the Programme, which will operate in full independence in accordance with operational procedures to ensure the equal treatment of the shareholders as established by law or regulations, including European ones, in force and applicable from time to time.

The maximum potential outflow for the purchase of treasury shares under the Programme is estimated at approximately Euro 700 million.

In accordance with Article 2357, paragraph 1, of the Italian Civil Code, purchases of treasury shares must in any case be made within the limits of distributable profits and available reserves resulting from the latest approved financial statements at the time each transaction is carried out.

### **Minimum and maximum purchase price and number of purchased shares**

The treasury shares shall be purchased under the price conditions specified in Article 3, paragraph 2, of Delegated Regulation 2016/1052/EU. individual purchase transaction, and in any case at a price that is not higher than the higher price between the price of the latest independent transaction and the price of the highest current independent offer on the trading venue where the purchase is made.

The number of shares purchased each day shall not exceed 25% of the average daily volume of the Company's shares traded in the trading venue where the purchase is made, calculated based on the average daily trading volume in the 20 trading days prior to the purchase date.

### **Duration of the Programme**

\*\*\*

It should be noted that the Extraordinary Shareholders' Meeting held on 20 April 2026 also approved the cancellation of any treasury shares that may be purchased within and no later than 24 months from the shareholders' resolution of 20 April 2026. Any subsequent amendments to the Programme will be promptly disclosed to the market, in compliance with applicable laws and regulations.
